LET'S GET STARTED

60's Space Age Fashion is Making a Comeback!

Now a day, the textile industry is a global phenomenon comprised of every business involved in the developing, producing, manufacturing, and distribution of textiles. Now it is also a very complex industry. It starts in agriculture with fiber production, husbandry of sheep and silkworm, mining of metals and minerals. Then these fibers are processed into yarns, fabrics and apparel. This includes spinning mills, weaving mills, knitting mills, dyeing mills, garments. In addition, companies that sell buttons, zippers, knitting supplies, sewing machines and threads, laces, looms, and drapery hardware is also related to this industry.

Unveiling the Spectacular Spring-Summer 2023 Sale

Weaving is the major method of fabric manufacturing. The technique probably became known before spinning. Primitive people may have observed the grasses and twigs in the nests of birds, and thus discovered how they could make clothing for themselves.
